

## Diaphragm Seals

PIP #: DS-PI-52A

Applicable to:  
102/103  
202/203 Seals

### DIAPHRAGM SEALS WITH 1" THROUGH 3" FLAT-FACED FLANGES

Although flanged seals (Types 102/302 and 103/303) can be attached to a flat-faced mating flange, the resulting joint is not acceptable if the customer is using lined (glass, rubber, Teflon, etc.) pipe. For such applications, a full flat-faced flange is required.

Because a full flat-faced flange requires a different lower housing than a raised-face flange, we have placed the pricing of all ½" through 3" seals with flat-faced flanges on application.

101/103, 202/203 Seals
