TYPICAL PROOF AND BURST PRESSURES FOR ASHCROFT® COMMERCIAL GAUGES WITH POWER*FLEX*™ MOVEMENT

Rated Pressure (psi)	*Typical Proof Pressure (psi)*	*Typical Burst Pressure (psi)*
15	21	1200
30	42	1400
60	84	1600
100	140	1100
160	224	1400
200	280	1200
300	420	1600
400	560	1600
600	840	2000
1000	1250	16,000
1500	1875	21,400
2000	2500	21,000
3000	3750	23,400
4000	5000	24,000
5000	6250	25,300
6000	7500	22,000
10,000	12,500	30,000
15,000	18,750	30,000

NOTE: Individual gauge results may vary from the values listed above due to standard manufacturing practices. The typical Proof and Burst pressure values shown are the result of averages of gauges tested. If overpressure protection is required, please consider a higher accuracy gauge. Consult factory for details.
