

**Date Code Identification on
63mm & 100mm Type 1008S and 2½" & 3½"
Type 1009 AW/SW, and 63 2008S Stainless
Steel Case Pressure Gauges**

Ashcroft 63 & 100mm Type 1008S, 2½" & 3½" Type 1009 AW/SW and 63 2008S stainless steel case pressure gauges manufactured in our Stratford, CT, USA facility will have two mylar stickers on the back of the gauge.

One shows the month and year of manufacture, as well as (underneath the date code) a four-digit code identifying the final inspector of the gauge.

The second mylar label shows a number that identifies the employee who calibrated the gauge.
